

Allowing LPFM stations to take priority over my current national service, K-LOVE, would be very harmful to me personally. K-LOVE serves me as no local station could and provides wholesome music and messages that lift me up spiritually. K-LOVE has helped me through the death of a friend and my bout with breast cancer. Please don't take away this immeasurably valuable station by giving LPFM priority over national or regional services. This radio network provides family friendly music and talk that is safe for all of the family to hear. It is positive and encourages me when I am troubled.
